DETAILED ACTION

This action is in response to applicant's arguments submitted 6 February 2007.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S.

Patent No. 5,531,708 to Woodruff (as cited by Applicants).

Woodruff discloses a syringe having a shaft 14 including a scale 18, stop 20, threads 26, thumb rest 22, barrel 4 and flange 30. See Figures 1-9.

Response to Arguments

1. Applicant's arguments filed 6 February 2007 have been fully considered but they are not persuasive.

2. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "having the scale and a stop that moves relative to the scale and plunger", see Page 2 of remarks) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Woodruff patent shows a shaft "including" a scale. Including does not mean integral with, fixedly attached to, or printed on. Rather, "including" is defined as "to contain

something as a part of something else" (Cambridge). Clearly, the shaft 14 includes scale 18, since 18 is a part of, and is attached to, the shaft 14.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
